## IN THE UNITED STATES DISTRICT COURT FOR THE WESTERN DISTRICT OF WISCONSIN

NATALIE JOHNSON,
------------------

Plaintiff,

**ORDER** 

v.

19-cv-760-wmc

C.R. BARD INC. and BARD PERIPHERAL VASCULAR INC.,

Defendants.

Before the court is the parties' request for ruling on objections to certain deposition designations as to Scott Trerotola.

DEPON-	DEF	PL OBJECTIONS	DEF RESPONSE TO	COURT
ENT	AFFIRM		OBJECTIONS	RULING
		Running Objection to Relevance & FRE 701: Plaintiff objects on grounds that this testimony is not relevant to this case, that this witness has no personal knowledge that is relevant to this case, and that this is an attempt to elicit expert opinions from a witness not designated as such in violation of FRE 701. Plaintiff makes his counter-designations in the event the court overrules his objections.	Bard's response to Plaintiffs "Running Objection to Relevance & RE 701": Plaintiff's running objection was over-ruled in the MDL, where the Court stated: "The Court overruled a number of objections to allegedly non-disclosed expert opinions because the questions generally were about the doctor's own practice and personal experience using IVC filters matters the Court regards as relevant factual evidence rather than expert opinion under Rule 702."	RESERVE as to any specific expert opinions beyond the scope of Dr. Trerotola's personal knowledge, otherwise OVERRULED

ı		<u> </u>	
		Furthermore, Dr.	
		Trerotola was deposed in	
		the MDL because of his	
		work, over many years,	
		with IVC filters and his	
		studies of IVC filters,	
		including Bard filters and	
		because of the work he	
		did directly with Bard as	
		a consultant to it on IVC	
		filters. Dr. Trerotola is	
		the Chief or	
		Interventional radiology	
		at the Hospital of the	
		University of	
		Pennsylvania. His	
		testimony is relevant to	
		steps Bard took to obtain	
		medical expert input on	
		the design, use and	
		warnings relating to its	
		filters, as well as to what	
		medical doctors utilizing	
		filters knew at various	
		times about filter	
		indications and	
		contraindications, filter	
		retrieval and other filter	
		related information. His	
		testimony is based on his	
		own personal knowledge	
		through his experience as	
		a medical doctor as to the	
		indications for,	
		complications associated	
		with, implantation and	
		retrieval of IVC filters.	
		His testimony, elicited	
		principally through	
		questions by plaintiff's	
		counsel, necessarily	
		provides information	
		based on his expertise	
		with IVC filters but he is	
		not a lay witness	
		improperly offering

Trerotola, Scott 01/20/2017	20:06-20:09	(20:06-20:09) Relevance	(20:06-20:14) Dr. Trerotola was deposed at the insistence of Plaintiffs, in the MDL, because of his work over many years as a consultant to Bard on its IVC filters. This testimony involves his answering Plaintiff's counsel's question about the various IVC filters he has placed. The testimony is relevant to his experience as a medical doctor in the use	OVERRULED
